SHINGLES DOESN'T CARE

No matter how healthy you feel,
your risk for shingles increases as you age.

Protect yourself with

SHINGRIX

(ZOSTER VACCINE
RECOMBINANT, ADJUVANTED)

For the first time ever, you can protect
yourself from shingles with a vaccine proven
in clinical trials to be over **90% EFFECTIVE.**

Talk to your doctor or pharmacist
about protecting yourself with SHINGRIX

What Is SHINGRIX?

SHINGRIX is an FDA-approved vaccine for the prevention of shingles (herpes zoster) in adults 50 years and older.

SHINGRIX is not used to prevent chickenpox.

Important Safety Information

- You should not receive SHINGRIX if you are allergic to any of its ingredients or had an allergic reaction to a previous dose of SHINGRIX
- The most common side effects are pain, redness, and swelling at the injection site, muscle pain, tiredness, headache, shivering, fever, and upset stomach

- SHINGRIX was not studied in pregnant or nursing women. Tell your healthcare provider if you are pregnant, plan to become pregnant, or are breastfeeding
- Vaccination with SHINGRIX may not protect all individuals
- Ask your healthcare provider about the risks and benefits of SHINGRIX. Only a healthcare provider can decide if SHINGRIX is right for you

Please see Important Facts About SHINGRIX on next page.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch, or call 1-800-FDA-1088.

SHINGLES DOESN'T CARE. SHINGRIX PROTECTS.
